

The challenge

Clinical teams face increasing complexity in managing trials due to:

- **Fragmented systems**
- **Delayed visibility into risks**
- **Reactive workflows that slow decision-making**

In particular, operational teams often struggle to:

- **Identify what's most urgent**
- **Track escalations**
- **Respond to evolving study conditions in real time**

Limited visibility into the day's top priorities can impact operational efficiency and data quality.

To help overcome this challenge, Fortrea created:

Xcellerate® Start My Day

Business benefits

By providing study teams with clearer visibility into site performance and study health, Xcellerate® Start My Day:

- **Empowers teams to prioritize more effectively** as they are able to mitigate risks earlier and help drive operational efficiency
- **Helps accelerate decision-making** as teams can identify critical issues earlier
- **Provides enhanced trial oversight** as the study team gains clearer visibility into site performance and study health

Learn how Xcellerate® Start My Day supports more informed strategic decisions to help improve data quality, patient safety and trial outcomes.

The Fortrea solution

As a dashboard, Xcellerate® Start My Day aims to make clinical oversight more proactive and:

- **Delivers consolidated key metrics**, such as trip report aging metrics and RAPID** count
- **Surfaces critical changes in a single dashboard**
- **Streamlines workflows** by displaying key data in a consolidated format

**RAPID = Risk, Action, Protocol, Deviation, Issue and Decision
